

The Power Purchase Agreement[^]

**Slash your electricity bill with clean affordable energy,
plus monitor your electricity usage 24/7.**

Experience a smarter way to pay for solar and battery systems

Join the renewable energy revolution today

If you've ever wished you could enjoy the amazing benefits of a solar and battery system at home (and slash your power bills in the process), Powow has the answer.

The Power Purchase Agreement (PPA) is the smart way to get a complete solar panel & battery package installed for your home. With nothing to pay up front, fixed monthly payments for the duration of the 10 year plan, not to mention a 100% System Performance Money Back Guarantee - the Powow PPA is a solar and battery payment solution with a difference.

Why the PPA?

\$0 to pay up front

Get a fully installed solar and battery system with nothing to pay up front. Experience savings* on your electricity bill from day one.

100% system performance money back guarantee

If your system isn't working, we'll fix it at our cost and credit you for the days the system was not working.

System maintenance, monitoring, & equipment replacement

Enjoy peace of mind for the duration of the plan. If the system stops performing we will fix things up at no extra cost to you.

Flexibility to upsize your system in future

If your power needs change, you can add extra panels and/or another battery. There's no extra application, just let us know how many panels or batteries you want to add, and once installed we'll update your monthly payment accordingly.

Buy out your system at any time

You can choose to buy-out the system at any point during your PPA plan to own your system outright. Plus at the end of the 10-year plan you can buy the system for just \$1.^

Join the Powow Virtual Power Plant

Get \$20 per month off your solar system when you join the Powow VPP. That amounts to an additional \$2,400 savings on the cost of your battery. Our VPP is straightforward, anytime Powow discharges power from your battery, you receive a fixed, premium rate of \$1/kWh.

^Powow PPA – approved customers only.

*Savings vary according to individual circumstances. Terms and Conditions apply.
